## FIRES STILL RAGING

Michel People Fought For Homes With Death at Door.

## CANADA DISASTER SPREADS

Notwithstanding it was thought that the fires were about quelled, a gale sprang up and the awful work of ruin continues.

Vancouver, B. C., Aug. 6.—For three days the people of Michel have fought for their homes with death at the door. Tuesday afternoon they were beaten at the game.

The city, the second in size in the devastated district of east Kootenai, started to burn in real earnest at dusk. Nothing can save it from being a heap of ruins, even more complete than Fernie.

City Was Doomed.  
From a light eastern breeze the wind turned to a gale from the west at 1 o'clock in the afternoon and the city in a moment was doomed.

The blaze came sweeping down the hill. At the edge of the town, 100,000 feet of mine timbers owned by the coal company caught fire and four loaded railroad cars standing on a side track were consumed. Two Canadian Pacific locomotives were hitched on to a train to carry the fire-fighters away to the west to safety. By the time the train left for the west the fire was spreading all over the yards.

## Train Raced with Flames.

The train got only a half mile on its journey when it encountered a wall of flames. There was danger of its being hemmed in and being burned with everybody aboard, so the locomotives were reversed and run back will all speed. By the time the train returned, all the houses on the flat district back of the Great Northern depot were burning and the main town was likely to catch at any moment.

At 5 o'clock Wednesday morning a lone newspaper man and the telegraph operator still stuck by the telegraph instrument.

## Stuck to His Post.

The last message the newspaper man sent was:  
"Many houses are burning. Trains cannot get west of here. Railway service west of this town will be blocked indefinitely. To the east, the line is clear. Will try to reach Crow's Nest before morning and forward news from there."

## BRYAN'S SPEAKING TOUR.

Candidate Will Visit the Principal Cities During Campaign.

Buffalo, N. Y., Aug. 6.—William J. Bryan will make several campaign tours which will embrace nearly all parts of the country, speaking in most of the principal cities between the Atlantic and Pacific coasts.

The candidate's itinerary is now under preparation by Norman E. Mack, the chairman of the democratic national committee.

John W. Kern, the democratic vice presidential candidate, will likely accompany Mr. Bryan on part of the trip, and Chairman Mack hopes to arrange to have Mr. Kern speak with Mr. Bryan when he makes his visit to New York state.

## Ship Captain Suicided.

Savannah, Ga., Aug. 6.—Captain A. M. Guthrie, of the schooner Frank A. Williams, of New York, committed suicide Friday morning by jumping overboard eight miles west of north-west of Cape Lookout. The schooner was being brought from New York to Southport, N. C., where it had been recently sold. The schooner was left without a navigator and the mate sailed it down to this point.

## People's Bank Closes Doors.

Union, S. C., Aug. 6.—The People's bank of this city, closed its doors on Tuesday pending voluntary liquidation. In a statement issued by the president, D. F. Arthur, general depression is the reason assigned for the action. It is said that depositors are being protected.

## BOOKKEEPER SUICIDES.

Bank Employee Shot Himself as His Checks Were Turned Down.

New York, Aug. 6.—Charles W. Westerfield, twenty-two years of age, an assistant bookkeeper of the Produce Exchange bank, committed suicide by shooting himself through the head in the book room of the bank Tuesday afternoon just as two checks bearing his signature were presented at the paying teller's window.

Westerfield had no deposit at the bank to meet the checks, which were for \$20 each, and the teller detained the man who presented the checks and went for Westerfield to make an explanation. This resulted in the finding of the young man's body in the vault where the books of the bank were kept.

The bank officials say that Westerfield was a model employee; that they knew of no bad habits which he indulged, and that they knew of no reason for the giving of the checks, as he might easily have obtained the amounts of the checks of his employers by loan. He has been more than three years in the bank's service. His accounts with the bank are correct.

## LABOR FAMINE PREDICTED.

Louisiana Experiencing Trouble in Getting Laborers.

New Orleans, La., Aug. 6.—To assist in ending the mining strike in Alabama, twenty-five men consisting to a large extent of foreigners, but with a few negroes among them, have been rushed out of New Orleans for the scene of trouble.

What narrowly approaches a labor famine here is the result of this exodus. The workmen have been sent off in batches of twenty to fifty. The bulk of the foreigners were Austrians with a scattering of Italians.

"There are not a hundred idle men in New Orleans," declared J. L. Knoepfer, secretary of the state board of agriculture and immigration.

Secretary Knoepfer predicts a great labor scarcity for the fall in Louisiana. "Three thousand additional men will be needed to harvest the crops during October," he says. "Rice is now ready to be sent to market and sugarcane and cotton will follow shortly afterwards."

## CUBAN ELECTIONS.

Returns of the Municipal and Provincial Elections Come in Slowly.

Havana, Aug. 6.—The returns of the municipal and provincial elections held last week are all coming in slowly and probably less than half of those of the whole island have been received.

The latest indications are that the Miguelistas carried Oriente province. Camaguey is doubtful. Santa Clara, Matanzas and Pinar del Rio evidently have been won by the conservatives. Havana province is probably Zaylata. The Havana city returns are still much confused, but the conservative candidate for mayor, Senor Cardenas, is probably elected.

Ten days are likely to elapse before the complete returns are in.

## Ship May Have Foundered.

Philadelphia, Aug. 6.—Captain Olsen, of the Norwegian steamship Captain Bennett, which has arrived here from Jamaica, found a big area of oil off the North Carolina coast, evidently the cargo of some petroleum carrier or whaler which may have foundered in the recent storm. He says that when north of Cape Hatteras his vessel passed through oil floating on the surface of the water covering an area of more than one hundred miles, extending in all directions. Within the petroleum area the oil had stilled the sea and it was as calm as the Delaware river on a summer day.

## Airship Comes to Grief.

Stuttgart, Aug. 6.—During a storm the Zeppelin airship broke away from its moorings, took fire and disappeared in the air. Several persons were injured. Count Zeppelin, however, is safe.

## New Orleans to Invite Commission.

New Orleans, La., Aug. 6.—The national currency commission of the country will be invited to hold its session in New Orleans in November of this year.

## SEN. ALLISON IS DEAD

Had Represented Iowa In U. S. Senate Since 1873.

## DIES FROM HEART FAILURE

Senator Allison Bore the Title of "Father of the Senate," Having Held the Record for Length of Service in That Body Over All Others.

Dubuque, Iowa, Aug. 6.—United States Senator W. B. Allison died at his home in this city Tuesday afternoon. The immediate cause of his death was heart failure. The end came as a result of a serious slinking spell due to a prostatic enlargement.

WILLIAM B. ALLISON.

complicated with kidney disease, and during a period of unconsciousness which had lasted since Saturday afternoon.

Senator Allison was born at Perry, O., March 21, 1829, the son of John and Mary Allison. His boyhood days he spent on the farm, which was his birthplace. Reaching young manhood, he secured his education in Allegheny college in Pennsylvania, and the Western Reserve college of Ohio, in both of which schools he distinguished himself, winning high honor in all the branches which he studied.

To Senator Allison, more especially than to any other man who ever occupied a seat in that body, belongs the title of "Father of the Senate." He was not only one of the oldest men in that body, but he held the record beyond all others for length of service there. More important still, his service in the senate was such that his title to the position depended not at all upon his advanced age or extended service. Senator Allison was at the time of his death, and had been for a third of a century, a leader in fact as well as in name.

Mr. Allison entered the senate on March 4, 1873, and had served continuously ever since, making the longest service as a member of that body ever covered by any individual. When he died Tuesday, he had just completed the fifth month of the thirty-sixth year of his occupancy of this important post. His present term would have expired March 4, 1909, but he had already been nominated by primary for still another term.

## Campaign of Education.

San Francisco, Aug. 6.—The executive committee of the recently organized grape growers' association at a meeting formulated plans for a campaign of education to show that the moderate use of wines is beneficial to the human race. The movement is started to counteract, as far as possible, the wave of prohibition sweeping over the country.

## Victim of Assassins.

Columbus, Ga., Aug. 5.—Walter Williams, a white man, was assassinated by unknown parties as he sat on the front porch of his residence near the Chattahoochee river in Russell county, Alabama, opposite the town of Florence, Ga. He was shot in four places, and one bullet bored a large and ghastly hole in his forehead.

## EARTH SHOCKS CAUSE TERROR.

Several Persons Reported Killed in Constantine, Algeria.

Constantine, Algeria, Aug. 6.—A number of earthquake shocks were experienced here throughout Tuesday, but Tuesday night the quakes ceased altogether.

At first it was believed there was no loss of life, but later three bodies were found. Eight persons were injured, and it is feared other cases will be reported.

There were wild scenes during the tremor. The patients in the hospitals staggered, half naked, to the street and the prisoners in the city jail screamed with terror. In the excitement, however, they were overlooked and remained locked up.

A majority of the inhabitants of the city are encamped in the open spaces, fearing to return to their houses.

Reports from the interior show that nowhere was the damage done as severe as that in this city.

## SAVANNAH RAIDS TIGERS.

Forfeited Bonds Will Put \$10,000 into City's Coopers.

Savannah, Ga., Aug. 6.—Over one hundred blind tigers in Savannah were raided under the city's new plan on Tuesday. It is said, the absence of warrants of any kind, or even of uniformed officers marking the raids as unusual. In each case a detective or plain clothes man appeared in the suspected place, told the proprietor: "See the chief at 3," and then disappeared.

A bond of \$100 in each case was waiting for the proprietor at police station. The cases will be called Thursday, no defendants will appear, the bonds will be forfeited and the city will receive \$10,000. This, it is planned, will occur annually. Because of the raids fifty new near-beer licenses at \$200 each were issued.

## Deputy Feared Violence.

Pensacola, Fla., Aug. 6.—Fearing possible violence at the hands of the residents, who are bitter over the killing and wounding of so many people Wednesday night, when a mob stormed the jail, Deputy Sheriff B. H. Eaton, who was wounded himself, left here for some point in Alabama. He was accompanied as far as Flomaton by the sheriff, who had been requested by the deputy to give him protection. The latter received a telephone message from the point where the deputy went, stating that he had arrived in safety.

## Burglars Make Raid.

Albany, Ga., Aug. 6.—In the town of Baconton a band of burglars broke into the bank of Baconton, the postoffice and four stores, and made unsuccessful attempts to enter three other stores. The safe in E. D. & J. T. Glanville's store was dynamited and cleaned of its contents and cash drawers were rifled in the other places. The burglars failed to get into the postoffice safe or the bank vault.

## Found \$50,000 Check.

Chicago, Aug. 6.—William Becker, a postoffice wagon driver, found a \$50,000 check Tuesday in the driveway beneath the federal building and reported it to Superintendent Fred Day. The check was payable through the Merchants' Loan and Trust company. The trust company was notified and a bank messenger was sent for the check. Becker is said to have been the recipient of many thanks and a \$2 bill.

## Subsidies To Be Granted.

Tokio, July 16, via San Francisco, Aug. 5.—The amount of subsidies to be granted in accordance with the steam navigation encouragement laws for next year is estimated to be over five million yen. The result of the investigations made by the department of communications shows that there will be thirty-eight steamers next year entitled to the subsidy.

## Payton Wants Congressional Seat.

Atlanta, Aug. 6.—Hon. Claud Payton, representative from North country, and one of the strongest members in the lower branch of the general assembly, will be a candidate for congress from the second district in 1910. In the event the incumbent, Hon. J. M. Griggs, does not run.

## CONDITIONS SERIOUS

Great Excitement Prevails In Alabama Mining Section.

## ONE NEGRO WAS LYNCHED

If the Present Unsettled Conditions Continue Governor Comer May Call Out More Troops for Duty in the Mining Districts.

Birmingham, Ala., Aug. 6.—Just as a mass meeting was being held at Brighton, ten miles south of Birmingham, near the Woodward mines, Tuesday night, deputies brought in Will Miller, a negro charged with connection in the dynamiting of the house of Finley Fuller Monday night.

The dogs placed upon the trail a short while after the dynamiting led to the home of Miller. He claimed that he was nursing a sick friend at the time and was nowhere near the dynamiting.

The mass meeting was composed of prominent citizens of the place and strong resolutions were adopted that there would be no lawlessness allowed in the community.

Wednesday morning when a deputy sheriff was sent to Brighton to get Miller and bring him to the county jail in Brighton, it was discovered that the little calaboose had been broken into and the body of Miller was found in the woods hanging to a tree. He had been lynched.

The greatest excitement is on around Brighton, and further trouble is imminent.

There is no telling who did the lynching.

Another house was blown up during Tuesday night at Wylam, in the western part of the county, but no one was injured.

## Two arrests have been made.

The governor is in conference with the sheriff and the commanding officer of the military and may call out more troops for duty in the mining districts.

Conditions are becoming very serious. Reports received are to the effect that there has been much shooting in various camps in the mining district, though no one has been so far killed.

## Williams Refused to Speak.

Des Moines, Iowa, Aug. 6.—John Sharp Williams, nominee for senator from Mississippi and former leader of the democratic minority in the national house of representatives, Tuesday absolutely refused to deliver a democratic partisan address at the Preston, Iowa, Chautauqua. The day had been billed as democratic day and tremendous crowds were present expecting to hear stirring political addresses. The pleadings of the management were in vain, for Williams refused absolutely to discuss politics.

## To Stamp Out Ball Gambling.

Chicago, Aug. 6.—Efforts to stamp out gambling in baseball will immediately be made by the American baseball league. President Johnson, of the league, it is announced, will issue a bulletin to every American League club, calling attention to the prevalence of betting, and asking each club owner to enforce to the letter the section in the league constitution prohibiting betting. President Johnson figures that in order to discourage the gamblers it may be necessary to place under arrest every one caught making bets at the ball parks.

## Family Drown in Lake.

Superior, Wis., Aug. 6.—That E. J. Hume, wife and child, of Eau Claire, Wis., were drowned in Lake Michigan, in Wisconsin, Sunday afternoon while attempting to cross the lake in a duck boat, was confirmed by the finding of the bodies of Mrs. Hume and the baby in the lake. Mr. Hume's body has not yet been recovered.

## Major Kellogg Dead.

Des Moines, Iowa, Aug. 6.—Major E. D. Kellogg, who offered in the Iowa legislature the famous resolution pledging Iowa's faith, credit and resources in men and money to the maintenance of the national honor in the civil war, died Sunday night at his home in this city after a prolonged illness.

## OAK HALLS PLAYED ALL AROUND LAWTEY

Home Boys Held a Swat Feast, Getting  
Eighteen Hits.

HIT BALL ALL OVER THE LOT

McLeod Was the Candy Kid on Bases.

Sheats, Watson and Taylor Stars at  
Bat—Lawtey Got Only One Measly  
Hit Off Watson.

(By Jack Shea.)

It was a mighty poor set of "ball players" that came here yesterday from Lawtey to play the fleet-footed Oak Halls, and it was the saddest team our boys have had the pleasure to trounce. The way the Oak Halls hung it on them was a sin, for they slamed the sphere to all corners of the lot, stole bases galore—twenty in all—that's enough to win several games.

Randel did the receiving for the visitors long enough to have four past balls in two innings, and was responsible for two runs in the first inning. In the third the Oak Halls found Pierce very easy, and their bats made sweet music. When that frame was ended Burkhim marked up four runs to their credit. The game went merrily on till the sixth, when the locals sent another man across the rubber. Watson in the meantime had the visitors completely at his mercy—not a man could connect with his delivery.

In the seventh the locals got busy again and the result was two men scored. Still nothing doing for the visitors.

In the eighth inning the Oak Halls had another batting spasm and nearly knocked the cover off of the ball. When the disturbance ceased it was found that five men had made the circuit. Still nothing doing for the visitors. The next fit the locals had was at their last bat, and they thought they would have another little round of batting practice. The way they jumped onto Pierce's curves would jar Taft off of the tariff plank. When the swat-feast was over they had four more tallies to their credit. Still nothing doing for the visitors, poor fellows.

Lawtey put up a fairly good game, but the Oak Halls' speed carried them off their feet, and it was evident early in the game that they were not in our class. The locals went into the contest to show the fans that they could bat and run bases, and their demonstration settled all doubt. Ocala will have a poor chance today if the Oak Halls put up the same article of ball in the Brick City this afternoon.

### First Inning.

Graham hit to left for the initial bag; Sheats bunted and beat it out, Graham going to third and scoring on passed ball; Sheats stole second and third, and came home on passed ball; Canova fanned at three, but catcher missed the third one and Canova landed safe on first; McLeod reached first on an easy one to the pitcher, but was out at second on Mitchell's hit to short; Canova stole home, and Mitchell took second and third; Denton hit on three wide ones; Taylor struck out. Three runs.

Pound fanned; Goodfellow reached first on McLeod's error; George out on foul to third; Goodfellow was caught trying to steal second. No runs.

### Second Inning.

Watson struck out; Kennard out, short to first; Graham went out, short to first. No runs.

Teston hit to short, who overthrew first and Teston went to second; Gallison hit a hot one to short, reaching first; Lastinger skied out to center; Dressing out by being hit by batted ball; Teston caught in endeavoring to make third. No runs.

### Third Inning.

Sheats hit to center for one base; Canova hit to right for two sacks, sending Sheats to third; McLeod out, pitcher to first; Sheats scored, Canova going to third, scoring later on passed ball; Mitchell got hit and took his base; stole second; Denton reached first on grounder, scoring Mitchell and later scored himself; Taylor grounded to right for one base, and stole second; Watson fanned; Taylor stole third; Kennard retired side by whiffing. Four runs.

Randel fanned; Pierce, he fanned, too; Pound, he also fanned. Of course nobody scored.

### Fourth Inning.

Graham out on a foul to third;

### Fifth Inning.

McLeod sent one to second; Clark, who went into the game to relieve Mitchell, fanned; Denton laid one down in front of the plate and beat it out, stole second, and went to third on Taylor's grounder; Watson walked, filling the bases; Kennard retired the side, short to first. No runs.

Dressing went to first on grounder to short, but was caught at second; Randel couldn't find anything except the atmosphere; Pierce reached first when all the fielders tried to catch his fly, and stole second; Pound struck out. No runs.

### Sixth Inning.

Graham sent a long one to center who caught it; Sheats hit to left stole second; Canova skied out to second; Sheats stole third, and scored on passed ball; McLeod out, second to first. One run.

Goodfellow hit at three good ones, but missed them; George skied out to short; Teston struck out. No runs.

### Seventh Inning.

Clark fanned; Denton out to second; Taylor went to first on grounder down third-base line, and went to third on Watson's grounder to second; Taylor and Watson scored on Kennard's hit to left; Kennard goes to second on passed ball and steals third; Graham walked, and stole second; Sheats walked, and Canova's hit forced him out at second. Two runs.

Gallison struck out; Lastinger skied out to center; Burny, who took Dressinger's place, fanned. No runs.

### Eighth Inning.

McLeod walked, stole second, and went home when the ball was thrown away; Clark out, second to first; Denton hit the ball to center for two sacks; Taylor fanned; Watson singled through short, scoring Denton; Watson stole second and third, and scored on Kennard's hit to left; Kennard stole second and third, and scored on Graham's two-bagger to left; Sheats safe at first on error of left; Graham scored; Canova ended the agony by going out on fly to left. Five runs.

Randel out, third to first; Pierce sent an easy one to second; Pound grounded to Taylor, who fumbled it, Pound landing safe, but was caught at second. No runs.

### Ninth Inning.

McLeod safe at first on short's error, stole second; Clark hit to center for the first sack, and went to second; McLeod scored; Clark stole third and scored on Denton's hit to right; Denton stole second, and went to third on passed ball; Taylor fanned; Watson safe at first on error, and Denton scored; Watson stole sec-

ond, and went to third, scoring on Kennard's sacrifice; Graham hit through second and reached first; Sheats walked, sending Graham to second; Canova out, short to first. Four runs.

Goodfellow fanned; George skied out to second; Teston fanned.

We will now direct your attention to the box score, where you will see how the boys batted and ran the bases:

Left on bases—Oak Halls 9, Lawtey 5.

Stolen bases—Sheats 3, McLeod 7, Mitchell 2, Denton 2, Taylor, Watson 2, Kennard 2, Clark, Gallison.

Time of game—1.55.

Umpire—Dr. J. M. Dell.

### DIAMOND GOSSIP.

Kennard played a nice game, too. Taylor found Pierce for three safe ones.

Sheats will display his samples at Ocala today.

Denton fielded and ran the bases like a big leaguer.

Pound, for the visitors, was the shining star in the field.

We are going to have another "gol darned time" today, hea Henry?

Watson was also the prominent kid with the stick, getting three swats.

We will forget Tuesday's "exhibition"—the boys redeemed themselves yesterday.

Sandy sent a Texas Leaguer to the fence in the eighth frame. It was a nice drive.

Canova will do, although he had several bobbles; two of them were excusable.

McLeod was a regular cat's ankle on the bases. He stole seven. Keep it up, Mack.

Sandy caught a pretty game, and his pegging to second was a feature of the afternoon.

Eighteen hits. What do you know about that? Let us hope they will do the same at Ocala.

Watson threw twelve balls in the sixth inning, striking out three men. That's flinging some.

Sheats was the candy kid with the willow, getting three bingles and just when they were needed, too.

Every member of the Oak Halls fattened their batting average yesterday. Let the good work go on, boys.

Watson had the Lawtey boys eating out of his hand. He struck out thirteen and allowed only one scratch hit.

It was too bad Mitchell had to retire from the game. He would have liked to have been in the swat-feast, too.

### IMPORTANT HIGHWAY FOR STATE

Great Advantages Offered the Citizens of the Country Along This Line, and Many Parties Will Eventually Use It With Autos.

The rock road from this city through to Micanopy is now an assured fact, as the necessary money has already been raised by private subscription to put the venture through.

Several citizens along the proposed route readily gave their consent for right-of-way for this thoroughfare, but desired that they be assisted some in the matter of building the fences on each side, so that the whole amount would not be forthcoming from their immediate pockets. Having freely given of their lands and material, to be found on the grounds, they thought it would be nothing but right that they ask for this assistance, which was cheerfully given, and the road is now sure of construction.

When completed it will connect us with Ocala and Dunnellon, and there is no doubt that the road fever now spreading over the entire State will give the people what they have been longing for these many years.

It now seems that this is only the beginning of hard roads connecting the important cities, and that the commissioners of our county, the banner one of the State, are thoroughly alive to the situation, can best be judged by a talk with them and a look at the appropriations they are making for road purposes.

## Lard Laden Stomachs

"Necessity" is the mother of invention. Lard is the father of indigestion.

More than half the indigestion in the country to-day is directly attributable to greasy, indigestible food prepared with lard.

Cottolene is the original anti-lard product. It was the first, and it is the best. It is purer, more healthful, and will give better results than any other shortening medium.

Just as the original is always better than the imitation, Cottolene is superior to its imitators. Ask your grocer for Cottolene, and see that our trade-mark, a steer's head in a cotton-plant wreath, appears on the pail.

Cottolene is never sold in bulk; therefore, is a cleanly product, absolutely protected from all the odors and dust to which lard is usually exposed in the ordinary grocery store.

## PRELIMINARY TRIAL IN MORELAND CASE

Bexley and Osteen Arraigned Before  
Judge Mason Thursday.

### NUMBER WITNESSES EXAMINED

When Case Was Continued Until 9  
O'Clock This Morning—Large Number  
of Spectators Were Present to  
Hear Proceedings.

The case of the State vs. W. A. Bexley and Truby Osteen, who are charged with the murder of W. H. Moreland, a traveling man, at High Springs on Wednesday night of last week, and which was set for preliminary trial before County Judge Mason on Tuesday, when the hearing was postponed in order that service might be made upon material witnesses in the case, was called Thursday at 1 o'clock.

A large number of citizens of High Springs were present to hear the testimony in the case, and the court room was fairly well filled by those who were interested in the proceedings.

The taking of testimony proceeded slowly, a great deal of that which was taken being of a circumstantial nature, and late in the afternoon the hearing was continued until 9 o'clock this morning.

### TRIED TO KILL SULTAN.

Attempt Made to Kill Turkey's Ruler  
by Palace Official.

London, Aug. 6.—A special dispatch to the Exchange Telegraph company from Geneva, says:

"The sultan of Turkey was stabbed in the breast on Monday night by a minor palace official. The coat of mail which the sultan always wears, deflected the blow. The would-be assassin was arrested. Apparently he had been bribed to commit the act, as he had a large sum of gold in his pockets, and his baggage was packed ready for hasty flight.

This dispatch was received in Geneva in a telegram from Constantinople to a Young Turk here."

### Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate glands. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rockport, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." J. W. McCollum & Co.

### ELECTIONS IN KANSAS.

Stubbs Probably Nominated for Governor Over Cyrus Leland, Jr.

Topeka, Kans., Aug. 6.—While the results of the primary held Tuesday in Kansas cannot be stated positively, the return so far tended to confirm the reports of the probable nomination of William R. Stubbs, the Lawrence railway contractor, for governor on the republican ticket, over Cyrus Leland, Jr., and the naming of Jas. L. Bristow, editor of the Salina Journal and formerly fourth assistant postmaster general, for United States senator to succeed Chester I. Long, of Medicine Lodge, whose term expires in March, 1909.

The returns are extremely slow in coming in. Majorities cannot be even guessed at, but every return received so far at the different headquarters in Topeka indicate that it has been something of a landslide for Bristow, and that Stubbs is the nominee by a safe majority.

Results of the democratic vote are almost an unknown quantity as they are very incomplete.

### Cowherd Wins in Missouri.

Kansas City, Aug. 6.—Late returns from Tuesday's primaries in Missouri indicate that William S. Cowherd, of Kansas City, former chairman of the national democratic congressional committee, was nominated by the democrats for governor over David S. Ball, and Criminal Judge William H. Wallace of Kansas City. Cowherd's nomination is claimed by close to 25,000. Herbert H. Hadley, of Kansas City, the attorney general of Missouri, was the only candidate for governor on the republican ticket.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, state and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

As suggested by Col. W. J. Bryan, Democratic candidate for President, The Sun will receive contributions to the Democratic campaign fund, and forward same to the National committee. No subscription of less than one dollar will be received, and the names of all contributors will be published in The Sun, unless otherwise requested. Receipts for all money forwarded to the National committee will also be published. Send in your subscription and help the cause. The committee "needs the money."

## CITY FINANCES.

In reference to the inquiry of The Sun a few days ago as to why no financial statement had been made public this year, a member of the City Council has handed the editor the following statement, which we are informed is the only one to be obtained, although a statement of the condition of the funds has been read at each regular monthly meeting since this report:

A careful perusal of the above report shows some peculiar conditions which it would take an expert to explain, and The Sun invites criticism thereof. In fact, we think it but just to whoever made this report to be given an opportunity to explain just what it does show, especially as the report is not signed.

But there is one item that should not appear in this report, whoever made it—"water bonds fund overdrawn \$2,920.05"—for it is against the State law to overdraw such a special fund as this, and every member of the council who voted to do so is liable to imprisonment.

Truly, the financial condition of Gainesville looks bad, and shows exceedingly poor management for several years past, but it is to be hoped that the present council will be able to make a better showing in 1909.

The decision of the United States circuit court reversing Judge Landis' decision imposing the famous \$29,240,000 fine against the Standard Oil Trust will encourage people to believe that the Republicans are real trust-busters.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

## GEORGIA LEGISLATURE.

### Investigation of Convict Lease System Continued.

Atlanta, Aug. 6.—Probing into the convict lease system is still going on, and the investigating committee is piling up an astonishing and surprising array of evidence. The principal witnesses Tuesday were Captain J. W. English and former Chief Warden Jake Moore, whose testimony before the committee was very interesting and at times quite startling. The committee will probably call no additional witnesses after the members of the prison commission are heard. The report of the expert auditors will be heard and the committee will then consider the evidence and make up its report.

### Increase Tax Values.

What is declared will increase the taxable values of all corporations in the state now under the jurisdiction of the railroad commission will be the measure favorably reported by the house railroad committee Tuesday, which gives the right to the railroad commission to assess these properties instead of allowing them to make returns to the comptroller general and then arbitrate.

This measure to be reported is one drawn up by Mr. Hall of Bibb, and amended by Mr. Perry of Hall.

This was the only general bill reported.

After a two-hour debate over the measure to amend and strengthen the banking laws of the state, as declared for in the bill introduced by Senator Deen, at the request of the Georgia Bankers' association and recently passed in the senate, the house committee on banks and banking referred the bill to a subcommittee composed of Chairman Heard and Messrs. Donaldson of Decatur and McFarland of McIntosh. They will report later.

### In the Senate.

Practically the entire time of the senate was taken up Tuesday with discussion of the convict question.

Senator Peacock introduced a resolution calling on the governor to call an extra session for the purpose of disposing of the convict question and displacing all bills relating to this question. After spirited debate the resolution was voted down, 32 to 7.

In supporting this resolution, Senator Felder declared that the senate could only act in blindness at this time and declared his belief that Governor Smith would never sign any measure not providing for the immediate ending of the lease system.

The amendment offered to the Felder bill by Senator Walden, prohibiting the working of convicts in the mines, was voted down. Debate on the measure and various amendments was spirited and at times acrimonious.

ITCHING ECZEMA  
FIFTY-FIVE YEARS

Suffered Torments from Birth —  
Boils Formed as Big as Walnuts  
—In Frightful Condition and Could  
Hardly Work — Tried All Kinds of  
Remedies to No Avail — At Last

WHOLLY CURED IN 8  
MONTHS BY CUTICURA

"I had an itching, tormenting eczema ever since I came into the world, and I am now a man fifty-five years old. I tried all kinds of medicines I heard of, but found no relief. I was truly in a frightful condition. At last my blood was so bad that I broke out all over with red and white boils, which kept growing until they were as big as walnuts, causing great pain and misery. I thought they would take the skin off my whole body, but I kept from scratching as well as I could. I was so run down that I could hardly do my work. Mr. Nelson R. Burnett recommended the use of Cuticura Remedies, telling me he was confident they would benefit me, and in time, cure me. I used the Cuticura Soap, Ointment, Resolvent, and Pills for about eight months, and I can truthfully say I am cured. I cordially recommend Cuticura Remedies to all who are afflicted the same as I was, believing that, if they will use them according to directions, they will find them all they are represented to be. Any one doubting the truth of the above can write to Mr. Burnett, who will cheerfully vouch for my statements."

"Hale Bordwell, R. F. D. 3, Cedar Corners, Tipton, Ia., Aug. 17, 1907."

"I cheerfully endorse the above testimonial. It is the truth. I know Mr. Bordwell and know the condition he was in. He never tires of praising the Cuticura Remedies."

"Nelson R. Burnett, Tipton, Ia."

Gentle anointings with Cuticura, the great Skin Cure, preceded by warm baths with Cuticura Soap, followed in the severer forms, with mild doses of Cuticura Resolvent Pills, afford instant relief, permit rest and sleep, and point to a speedy cure of torturing, disgusting, itching, burning, and scaly humors, eczemas, rashes, and inflammations, from infancy to age.

chuls, but he will pack as usual in Zolfo.—Wauchula Advocate.

In an opinion rendered by Commissioner Prouty the Interstate Commerce Commission finds the all-rail rates on oranges and pineapples from points in Florida to the Florida base points are not unreasonable, but the carload rates on such articles from the base points to the Northeastern cities are unreasonable. Certain maximum rates were established and ordered to be put in force by September 15 next. The rail and water rates on these commodities between such points were not found unreasonable and the commission decided to establish carload rates both rail and water.

The thrilling experience of Mr. Clare, manager of the fiber factory, and a friend, will perhaps never be forgotten. On last Sunday morning they went to the jetties in a small row boat and had not been there long before the rough sea carried them out and made it impossible for them to manage the boat. To make matters worse an oar was broken, leaving them only one with which to steer the boat. They drifted with the waves and fortunately after being out all night were carried ashore near Chester on Monday morning. Much anxiety was felt for them here Monday morning when it was learned that they had not returned and preparations were hastily being made to search for them when they were brought in by Mr. W. L. Evatt. They had a narrow escape from a watery grave.—Fernandina Record.

## Disagreeable at Home.

Lots of men and women who are agreeable with others get "cranky" at home. It's not disposition, it's the liver. If you find in yourself that you feel cross around the house, little things worry you, just buy a bottle of Ballard's Herbine and put your liver in shape. You and everybody around you will feel better for it. Price 50 cents per bottle. Sold by W. M. Johnson.

## Too Much Music.

"I like churches to provide fine music at all times," said a prominent clergyman, "but there are cases on record where the music has been given too prominent a place."

An eloquent brother divine from South Carolina once told me that going to preach at a strange church he was taken aside by a deacon, who whispered:

"Beg pardon, sir, but I must ask you not to preach longer than ten or twelve minutes. It's the music that the people come here for."

"That was wrong. But worse still was the case of a supply preacher in a church famous for its anthems and choruses. The stranger, not noticing the scraping and tuning of fiddles, rose and began to preach, when the choir leader jumped up and shouted angrily to him from the choir loft at the other end of the church:

"Sit down, man! When it's your turn we'll tell you."

## Joys of the Interns.

"If you could see some of the vicious home treatment applied to cuts," the young interne at Bellevue said, "you'd wonder at the comparatively few cases of tetanus. If a playful mongrel pup snaps at you, the east side knows that the only thing to do is to put some of the hair of the dog that did the biting—the hair must be from that particular dog—into the cut. They come with incisions reeking with all the filth imaginable—the dirtiest cobwebs from the garret, for instance, which are even more popular as a poultice than those made of a chew of tobacco. Two boys came in recently the same day with cuts to which cigar butts had been bound down because, they explained, they don't chew tobacco. You can't convince the east side that it's wrong. Don't waste time, but clean the wound scientifically, pray for good luck and yell 'Next!'"—New York Cor. Pittsburg Dispatch.

## English as Sung.

I live opposite to a school where music is carefully and constantly taught. The children have acquired the difficult art of dropping a semitone a minute. But the accent employed is even more interesting than the tone system. Here is a favorite school song:  
Flahrs, luvly flahrs, in a garden yeh may see,  
The rowers there with their reuby lip,  
Pinks the 'lunny by loves tak sip,  
Teutins, teutins, ay as a butterfly's wing,  
Merrygolde rich as the crane of a king,  
Rich as the crane of a king,  
But none seh fair teh me,  
None seh fair teh me,  
As these wildwood flahrs,  
Sweet wild flahrs,  
—London Academy.

## Ten Years in Bed.

"For ten years I was confined to my bed with disease of my kidneys," writes R. A. Gray, J. P. of Oakville, Ind. "It was so severe that I could not move part of the time. I consulted the very best medical skill available, but could get no relief until Foley's Kidney Cure was recommended to me. It has been a Godsend to me." J. W. McCollum & Co.

## Unwise Combination.

To the mind of Mrs. Abigail Jennings there was a sort of disloyalty in admitting to any outsider that a native of Willowby could be really eccentric. As for anything beyond eccentricity, Mrs. Jennings would never have admitted it, even in the case of Miss Rachel Gregg, who was frankly called crazy by the summer visitors.

"Now, Mrs. Jennings," said one of the boarders, "do you really mean that you've never known Miss Gregg to do anything that you'd call crazy?"

"No, I haven't," said Mrs. Jennings, with a firm and unyielding expression about her prominent chin.

"Why, what do you think of her sending that bag of eggs over to the Corners to Mrs. Cole right in the box with her laundry work and never telling the stage driver and letting him throw the box right off?" inquired the summer boarder. "Mrs. Cole says there's one shirt waist she'll never be able to wear again."

"Well," said Mrs. Jennings calmly. "I should say about that as I have about a number of little things Rachel does and has done. She may lack in wisdom and forethought now and again. But, then, who doesn't, I'd like to know?"—Youth's Companion.

## Showing Our Monkey Blood.

The batsman, congratulated on his home run, slapped himself proudly on the chest and began to boast of still finer home runs that he had made in the past.

"Did you see that gesture, the stricken breast?" said an ethnologist of Harvard. "Whenever we make that gesture in our vanity we prove the Darwinian theory up to the hilt."

"You know the gorilla. Kipling and Du Challa describe him—an enormous ape that in his indomitable bravado beats his breast with a sound like the rolling of the muffled drums of Memorial day."

"As big as a bull, as swift as a cat, as powerful as an elephant, the gorilla believes himself unconquerable, and in the vain glory of that belief he inflates his lungs and beats his swollen breast till the jungle rings like a gong."

"We in our moments of foolish and excessive vanity inflate our lungs and slap our swollen breasts."

"Thus, alas, we show the monkey blood in us."—New Orleans Times-Democrat.

## What a New Jersey Editor Says.

M. T. Lynch, editor of The Philadelphia (N. J.) Daily Post, writes: "I have used many kinds of medicines for coughs and colds in my family but never anything so good as Foley's Honey and Tar. I cannot say too much in praise of it." J. W. McCollum & Co.

## A Woman's Country.

The Frenchwoman may not be so classical in form or outline as many of England's beautiful women, but she has undoubtedly the gift of charm, and by virtue of this elusive, tantalizing quality she has for centuries bewitched and enthralled all the men of her country. France today is the most woman ridden country and also the most peaceful, prosperous and contented. The women rule by charm.—Stormy Petrel.

## The Old Master.

Mistress (to new servant)—I must impress upon you, when you go to the dining room, not to try to get the dirt off the 'Old Master' with a wet rag, but use a dry, soft cloth only. Servant—Mercy on us, marm; be I to wash the master?—London Tatler.

## Warning.

If you have kidney and bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. J. W. McCollum & Co.

## \* ZEPPELIN A G. A. R. VET.

Airship Inventor Served in the American Civil War.

New York, Aug. 6.—It is not generally known that Count Zeppelin, whose mammoth airship is breaking all flying records in Germany, is a veteran of the Grand Army of the Republic. He served through the American civil war as a cavalry officer in the army of the Mississippi in the brigade commanded by General Carl Schurz.

At the battle of Fredericksburg, the young German cavalryman owed his escape from capture by a brilliant feat of horsemanship which carried him through the line of bayonets with which he had been encircled.

It is said that it was in the union service that the count made his first balloon ascension, which created his interest in aeronautics. It was in a captive balloon sent up to observe the confederate lines. The count was successful, and became enthusiastic over the possibilities of balloons for military purposes. After that he made several ascensions before resigning from "the boys in blue."

## PLANS POLAR TRIP.

Walter Wellman May Make Balloon Voyage to Pole Next Year.

New York, Aug. 6.—Walter Wellman, who planned recently about going to the north pole in a dirigible balloon, said Tuesday night that he was planning to make the attempt next year. He said his airship, the America, built for polar atmospheric conditions, could easily travel from New York to Buffalo, Detroit, or even Chicago. It is, Mr. Wellman said, the second largest airship ever built, its 260,000 cubic feet being exceeded only by the Zeppelin.

"But in fuel conveying capacity and rapid action, the American exceeds the Zeppelin," continued Mr. Wellman. "The total lifting power of my ship is 19,500 pounds. I see no reason why the America should not remain 50 to 60 hours in the air."

## A Girl and a Snake.

It is a matter of fact that men have greater fear of serpents than have women. During a visit to friends in the country I was crossing a stretch of meadow in the company of my hostess' daughter, a sprightly girl of seventeen, when a black snake crossed the path ten feet in front of us. I caught my companion by the sleeve, but she wrenched herself loose, gathered her skirts about her knees, gave a running jump and landed squarely upon the back of the reptile. His snakeship thrashed the grass and the girl's ankles with equal facility. As soon as she could disengage one foot she planted it upon the serpent's head. In the absence of club or stones I was compelled to stand and witness a scene that to me was terrifying, but to the girl furnished supreme enjoyment. Years afterward when I read Haggard's description of Jess' fight with the kangaroo I understood the kind of entertainment that my young companion had provided for me.—Brooklyn Eagle.

## There's a Hare in the Moon.

Equally famous with the man in the moon and the woman in the moon is the hare in the moon, says Garrett P. Serviss in his "Astronomy With the Naked Eye." The original is a Buddhist legend. The god Sakkin, disguised as a Brahman, pretended to be starving and went to the animals for help. The monkey got him a bunch of mangoes; the goat picked up a fisherman's neglected string for him; the fox stole him a pot of milk. At last the god approached the hare. "I have nothing but grass," said the hare, "and you can't eat that." "But your flesh is good," suggested the pretended Brahman. The hare assented. "Then," said the Brahman, "I'll kindle a fire at the foot of this rock, and you jump off into it. That'll save me the trouble of killing you." The hare assented again, but as he leaped from the rock the god caught him in his arms and then drew his figure in the moon as a perpetual reminder of the excellence of self sacrifice.

## Cerebral Embolism.

Cerebral embolism, or the occlusion or plugging of an artery in the brain, causes sudden death. Growths or vegetations form on the valves of the heart. While attached they are harmless, but the instant one, large or small, becomes loosened and enters the rapid arterial current a very perilous condition obtains. The embolus, or plug, enters a vessel that becomes narrower and narrower and at last it is arrested and occludes or plugs the artery, thereby cutting off the blood supply. The force of the blood current back of the embolus keeps it at the seat of arrest. In brain cases the middle cerebral artery, at the base of the brain, is affected. Once lodged unconsciousness follows and soon death. Some of the symptoms resemble those of a true cerebral hemorrhage or apoplexy.—New York Herald.

## IT'S YOUR KIDNEYS

Don't Mistake the Cause of Your Troubles—A Gainesville Citizen Shows How to Cure Them.

Many people in Gainesville never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Gainesville people testify to permanent cures.

C. L. Kite, living at 304 E. Seminary street, Gainesville, Fla., says: "I think that a strain was the cause of kidney trouble in my case. I suffered from a dull, dragging pain in my back and this was always aggravated if I did any lifting or stooping. Although I had little faith in advertised medicines, I decided to give Doan's Kidney Pills a trial. I procured them at J. S. Bodiford & Co's, and am now very glad that I did so, for a short use entirely eradicated all signs of kidney disorder from my system."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

## A Rich Woman's Closet.

"The nearest approach to a Bluebeard's closet that I ever saw," said a woman the other day, "was in the country house of one of New York's most fashionable women."

"I didn't know her, but in a queer, roundabout way I was once shown over the house and saw Mrs. V.'s private apartments. I pretty nearly fainted when I walked into a room where a dozen or more women were apparently hanging from the ceiling."

"When I came to I found that what I had taken to be a choice collection of female corpses was really a lot of manikins. Mrs. V. had them made after her own measurements, and her choicest costumes were kept on them when not in use."

"Her maid would fasten a gown on to a manikin, put something over it to keep the dust off and then by means of a rope and pulley draw the whole thing to the ceiling. It was a fine arrangement, but looked as if Bluebeard had been around."—New York Sun.

## Born That Way.

There is perhaps no point on which the librarian and child disagree so entirely as that of the proper condition of the hands. A child whose hands were black with dirt solemnly stated, "I was born that way." Another declared that the doctor said "he must not wash his hands till the weather got warmer." Another whispered, "Teacher, that's the color of my skin."

A boy who brought back a book with its cover soiled and greasy refused to pay the fine and finally brought his mother in to speak in his behalf. We had been very unjust and unkind to her boy, she said, "for he is very careful. He puts his book in the icebox, where the baby can't get it, and nothing but our food and Willie's books ever goes in that icebox."—Library Journal.

## A Few Sufficed.

Sir James Crichton-Browne was sent on a mission to Jamaica in connection with the British colonial office. While at Kingston he had an encounter with a colored but very humble official. Sir James, a strenuous sanitarian and an ardent Scot, was keenly interested in the Scottish population of the island. "Do you have many Scotsmen in these parts?" he asked of the official. The darky thought for a moment and then answered, "Not many; just a few, but enough." Sir James collapsed.

## The Rain Was Hot.

Mrs. Goitt had been waiting for a week or more to give her rear porch a good scrubbing, but she was always afraid of incurring the keen displeasure of the people in the flat below, who, it seemed, were never off their porch and who would get all the drippings of her scrubbing operation.

When it rained, though, Mrs. Goitt saw what she thought was her opportunity. The people down below surely would not be out on the porch during the rainstorm, and all the water that dripped down would be attributed to the rain. She filled a bucket with boiling hot water, threw in a sallow cake of soap and got busy.

But she had reckoned wrong, for the people down below were on their porch enjoying the shower. In a minute Mrs. Goitt heard a woman's voice below saying: "Why, Martha, the rain's coming through from the porch above. The roof must leak."

And then Martha observed, with a gasp: "Yes. Add, oh, heavens, had you noticed that the rain is hot? Did you ever hear of such a thing? Aren't terrible things happening? All these awful murders, and now hot rain! But it's the Lord's doings, and we must submit."—Cleveland Plain Dealer.

## Early Lamps and Wicks.

It would be hazardous to conjecture what the first wick consisted of, but when we come to consider the iron lamp, or "crucible," we know that the wick commonly used was the pith of the rush, which was gathered and partially stripped of its outer green covering, cut into proper lengths, dried and tied up into bundles ready for use. The iron lamp was hammered out of one piece of iron in a stone mold. This was usually done by the blacksmith, and the molds are still to be seen in museums, in the hands of private collectors and no doubt at some of the country blacksmiths' shops. They are of one uniform shape, with some slight varieties. The lamp consists of two cups, one suspended above and inside the other. The suspender is so fixed and notched as to enable the upper cup, which holds the oil and wick, to be shifted to keep the oil constantly in contact with the wick. The lower cup catches the drip of the oil, which can be easily replaced in the upper cup by lifting it off until the oil is poured into it. The upper cup has sometimes a movable lid.—Chambers' Journal.

## Carnegie's First Investment.

It was due to Thomas A. Scott that Andrew Carnegie made his first investment, ten shares of stock in the Adams Express company, valued at \$500. This he did with considerable trepidation. He had labored hard for the money he had saved up while he had worked as a telegrapher. It is part of railroad history how he later fell in with the inventor of the sleeping car, saw the enormous advantages which that manner of travel held out to passengers and promoters and how he interested others in the invention of Mr. Woodruff. This occurred shortly after his return from Washington, when the problems of transportation were still uppermost in his mind. He was now on the road to success and wealth as he then pictured earthly possessions. The Pennsylvania oil fields yielded large returns when Carnegie and others turned their energies in the direction of the newly discovered territory. In one year land purchased for \$40,000 increased in value so that it paid a dividend of \$1,000,000.—Exchange.

## Reading a Horse's Face.

Every horse carries an index to his temper and intelligence in his face. The teachable, tractable animal is broad and flat between the eyes; the bony ridge of his face dishes slightly from the point where the face narrows toward the nostrils. His ears are well set, sensitive and far apart, with a well defined ridge of bone extending across the top of the head between them. Always feel for this ridge in judging a horse. The eye should be large, clear and bright, with a prominent ridge of bone along the inner and upper edge of the socket.—London Answers.

## Where Swallows Go.

The swallows all spend the winter in Central America and the south part of Mexico. They appear in the southern states as early as the middle of February, but seldom get as far north as New England until the month of May. The robins winter in the southern states and in northern Mexico. They are to be seen in flocks the winter through in the gulf states.—Exchange.

## Plausible.

"The trouble with this tooth," said the dentist, probing it with a long, slender instrument, "is that the nerve is dying."

"It seems to me, doctor," groaned the victim, "you ought to treat the dying with a little more respect."

## An Unhappy Answer.

The Curate—Good gracious, Giles! Whatever makes you keep such a spiteful old cat as that? Giles—Well, sir, you see, it's like this—I've felt a bit lonely since my old woman died.—London Opinion.

## Costly Jar of the Subway.

The tuppenny tube, London's subway, once set fire to a house in a manner so extraordinary as to merit attention. In a mansion beneath which runs the subterranean railway one of the bedroom fireplaces was fitted with a blower—a sheet of iron inside the grate which can be raised or lowered to regulate the draft. The blower rested on a series of iron notches. One afternoon a servant kindled a fire in the grate and when it was well alight raised the blower, so that the coal would burn hot and slowly, and so left it while she went downstairs. Presently, deep in the clay beneath the foundations of the house, a train rushed along. The vibrations from its passing were sufficient to jar the blower from the notches on which the servant had left it. It dropped down. The draft increased; the fire raged madly. The flames were enough to set the chimney on fire, burning soot set the water tank on the roof alight, and there resulted a considerable conflagration.—Pittsburg Post.

## OF THE HINDOOS

Are Hundreds of Millions  
of Them in India.

## FAME OF JUGGERNAUT.

Has Been Worshipped About  
Thousand Years, and His Na-  
Temple Is on the Sands of  
The Three Monster Cars.

were asked to describe India the  
mark that would spring from  
would be, "It is a land of  
It would be impossible to com-  
number of idols that there  
at the present time in India.  
Hindoos pretend to have 333,000,  
and these are represented by  
able idols, so that we are quite  
with the thought of taking  
of the idols of India. The  
of the whole Indian empire  
about 300,000,000, and possibly  
country contains ten times as many  
people.

is the great center of the  
making business, though in all  
of India the trade flourishes.  
the day through may be seen  
sacred city molding images of  
temporary use. Sculptors also  
found producing representa-  
of the gods in stone or marble.  
ters, moreover, make great  
idols for the temples, and  
in metal—goldsmiths, copper-  
and brass workers—turn out  
less highly finished specimens  
respective metals.

speaking of idols it should be  
mind that the images turned  
the potter, sculptor, carver or  
sculptor are not considered sa-  
it to be worshiped until cer-  
tastic words have been uttered  
by a priest. The ceremony  
giving of life," as it is called,  
image is a very solemn affair,  
then it is done the idol is regard-  
ed and must ever afterward be  
treated and with the ut-  
terance.

of the many millions of so called  
India, all of whom are counted  
of worship, three are regarded  
daily sacred and form the Hin-  
doo or trinity. They are re-  
sely Brahma, Vishnu and Siva.  
It is stated the second per-  
son of the trinity only has been rep-  
resented on this earth by human in-  
fants. Through one or all of these  
Hindoos believe they may ob-  
tation. Brahma represents the  
of salvation by wisdom, Vishnu  
and Siva by works. It is  
which method is adopted,  
all lead to the same goal.

is perhaps the most fa-  
ma among all the Hindoo idols,  
as his fame has gone forth  
every land. His temple is situat-  
ed on the sandy shores of Orissa, wash-  
ed by the wild waves of the bay of  
Pondicherry. The worship of Juggernaut  
has been the holy land of the  
Hindoos from that time till the present

William Hunter, who was one of  
the greatest authorities on things East  
says in a wonderfully graphic  
description of the temple of Juggernaut  
"On the inhospitable sands of  
a place of swamps and inunda-  
tion the Hindoo religion and Hindoo  
ritual have stood at bay for  
centuries against the world.  
The national temple whither  
people flock to worship from every  
part of India. There is the gate  
to heaven whither thousands of pil-  
grims come to die, lulled to this last  
rest by the roar of the eternal ocean."  
I saw on one occasion that  
the sight, the dragging of Juggernaut  
and the cars of his  
sister. The three idols  
separable, and ugly things they  
dragged nothing but huge logs of  
coarsely fashioned iron human  
but without arms or legs.  
Juggernaut's car stands forty-one  
feet high and has fourteen enormous  
wheels. The other two cars are just  
smaller. The great cars have  
dragged a certain distance—half  
a mile or more from the temple—and  
will not allow horses or ele-  
phants to undertake the work, but  
upon his faithful worshippers to  
themselves. Immense ropes, or  
cables, are attached to the cars,  
the word of command from the  
thousands of men and even  
children rush forward and  
the ropes and range themselves  
and the next moment are  
dragging and pulling at the cumber-  
some carriages, which at length  
with a heavy, creaking noise,  
shall I forget the sight. The  
cars are filled with tens of thousands  
of men, all wild with excitement.  
The fanatics who hold the ropes  
dragging the cars along with  
of soul. Every now and then  
would be a step that the men  
step, I supposed, but instead of  
they took to jumping in the  
air, shouting themselves around  
the cars, shouting and shouting

at the top of their breath: "Victory!  
Victory to Juggernaut!"

Once on a time infatuated worship-  
ers would throw themselves under the  
wheels of the mighty car that they  
might be crushed to death, counting it  
a privilege and a joy thus to perish.  
Some might do it today if the paternal  
British government did not provide  
against such catastrophes by taking all  
due precaution.—John J. Pool, B. D.,  
F. R. G. S., in Los Angeles Times.

### Samoa's Talking Man.

Samoa's talking man, or tola-fall, is  
a character. All the affairs of state  
of the village in which he holds office  
are carried upon his shoulders. In or-  
dinary he is the chief adviser, per-  
suader, convincer and restrainer of the  
leading chiefs. Having the gift of elo-  
quence, he makes the most of it. He  
enjoys immunity from many things.  
He cannot be spoken of in ordinary  
terms. If it should be necessary to  
speak of his eyes or his mouth or his  
limbs, special honorable words must  
be used, words which attach to him  
alone and have never been applied to  
the personal parts of ordinary men.  
As he stands to deliver his soft, per-  
suasive, mellifluous oratory, with staff  
of office in his hand, any one can see  
that he is a man of great importance.  
or if this is not apparent from his at-  
titude it may be gathered from the at-  
tention paid to his utterances by gray  
haired chiefs and by youth and maid-  
ens. If the talking man is a clever  
fellow and understands his business,  
he is the chief ruling power in his  
tribe, although the nominal headship  
is always vested in a chief or patri-  
archal figurehead.

### How Wyckoff Was Revealed.

The late Professor Walter A. Wyck-  
off of Princeton had a passion for  
knowledge at first hand and will be  
best remembered as the college pro-  
fessor who studied labor conditions by  
becoming himself a laborer. Starting  
in 1891 in Connecticut with no money  
and with a suit of overalls, he worked  
his way through nearly every state in  
the Union after the fashion of the  
floating laborers of this country, so  
many of whom ultimately become  
tramps. Wherever there was a possi-  
bility of work he applied for it, wheth-  
er it were digging ditches, wrecking  
houses or factory work. For awhile  
his incognito usually worked well, but  
as soon as his fellow laborers saw him  
at table they at once began to suspect  
him. His manner of eating, his way  
of holding knife and fork, at once set  
them speculating. Once he was seen  
drinking tea at a fellow laborer's  
house in Chicago. He lifted the saucer

### The Most Beautiful Flag.

In a village school in the Acadian  
region of Nova Scotia the young lady  
teacher, who was from a portion of  
Canada more remote from the United  
States than the section she was in,  
was on one occasion preparing for a  
little celebration of empire day. Call-  
ing one of the boys, she gave him a  
coin and said to him:

"Take this, please, and go out and  
get us the prettiest flag you can find."

She had no idea, of course, of his  
procuring anything else than a British  
flag, and her astonishment was great,  
therefore, when the boy came back  
with a small edition of the stars and  
stripes.

"What have you there?" the teacher  
asked sharply. "Did you suppose I  
sent you for anything else than the  
flag of your country?"

"Why," answered the boy, "you told  
me to get the prettiest flag I could find,  
and there was nothing else so pretty as  
this!"

The boy's judgment was unpreju-  
diced, at any rate, for he was a Cana-  
dian.

## DO YOU WANT TO MAKE OR LOSE MONEY

## THIS SUMMER?

THERE is no good reason for any "summer  
dullness" in the stores of this city. That's a  
strong statement—but its not nearly so strong as  
the one to follow.

No store in this city ever suffered from summer  
dullness that was not directly traceable to its  
advertising policy—that was not INEVITABLE  
on account of its advertising policy. This is a  
strong statement—but not so strong as the one  
to follow.

You—if you who read this are a merchant  
in this city—HAVE THE ABSOLUTE POWER  
TO DECIDE WHETHER, during THIS sum-  
mer, YOUR STORE SHALL LAG AND LOSE  
GROUND, through ENCOURAGING THE  
NON-BUYING HABIT IN THE PEOPLE—or  
shall keep as busy as in the so-called "busy  
seasons." You decide the matter one way or the  
other when you decide on how much or how  
little you will advertise during these summer  
months.

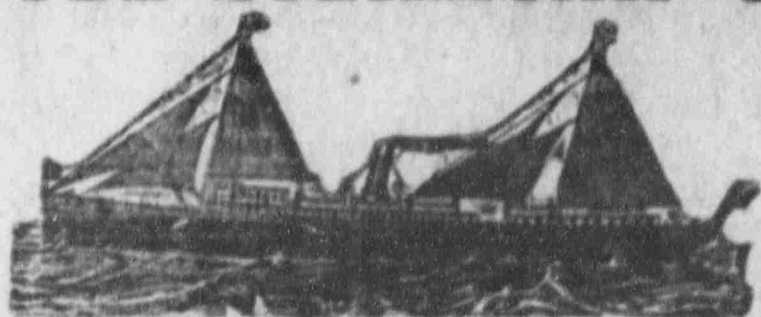

To really "gain ground" at a time when some  
stores are lagging and falling back is not only  
possible—it is an aspiration—worthy of a man  
who has the habit of accomplishing his purpose.

O. M. Jacobi, formerly of this city but who has for the past few years been making Tallahassee his home, departed for that city yesterday to resume his duties. Mr. Jacobi will be greatly missed by his large number of friends in this section.

The open-air concert by the Gainesville Brass Band last night was greatly enjoyed by all who had the pleasure of attending. The boys are making strides in the way of proficiency and the organization deserves the hearty support of the people of the city.

Dr. G. A. Nunnally, president of the Columbia College, will preach at the First Baptist church of this city on next Sunday morning and night. Dr. Nunnally is considered one of the greatest preachers in the country and the public is cordially invited to attend these services.

Attention of readers is called to an advertisement of the Suwannee Springs Hotel, which appears elsewhere in today's issue. Special rates are offered to those desiring to spend their vacation at this resort, and it would pay those contemplating an outing to investigate the advantages offered there.

The Baird Hardware Company have a change of advertisement in this issue to which attention of readers is directed. They have the agency for one of the best houses in the country manufacturing athletic goods, and can take orders for baseball uniforms, or in fact anything in the sporting goods line.

### Mad Dog at High Springs.

Parties visiting this city Thursday from High Springs report the appearance of mad dog in that town Thursday morning, the canine exhibiting every symptom of a severe case of rabies. The dog was speedily killed by the marshal, and as far as is known had not done any serious damage in the vicinity. The head of the animal will be forwarded to the Pasteur Institute in Atlanta, in order that an investigation may be made.

## BUILDING BOOM HAS AGAIN COMMENCED

Six New Buildings To Go Up Within a Short While.

### OTHERS NOW CONTEMPLATED

Much Activity Expected in the Building Line From Now On, Which Will Again Make Business Regain Its Former Standard.

The building boom has again struck the city and that which has already been contracted for is only a forerunner of numerous other buildings contemplated for early building.

H. M. McClamrock will commence at once the erection of a modern two-story residence. The contract will be awarded within the next few days, as all contractors now have in their bids. This building will cost in the neighborhood of \$2,000.

T. B. Stringfellow will have erected three large and commodious cottages on his property just north of Dr. McMillan's residence. These buildings will have all modern conveniences and will be a credit to that already handsome residential section.

J. D. Stringfellow will have two cottages erected on the vacant property just back of his residence which will in every way compare with the many beautiful homes of this rapidly growing section. They will contain all modern conveniences and will doubtless find ready tenants.

There are several other buildings spoken of, and it is hinted that other parties are contemplating the erection of more business houses. These would find ready tenants as there is a demand for this class of building just at this time, owing to the standard Gainesville has for its solidity and which is the best inland city in the State.

### TO OCALA TODAY.

Oak Halls Will Contest With the Brick City Team This Afternoon.

From indications, a large crowd will take advantage of the excursion rate to Ocala today, the attraction being a game of ball between the Oak Halls and the team of the Brick City, which will be pulled off this afternoon.

The special train will leave this city at 8 o'clock this morning, and returning will reach the city about 9:30 tonight. Stops will be made at points between Gainesville and the point of destination, and it is expected that the train will carry a large crowd to the capital of Old Marion for a day's pleasure.

### WANTED TO BE LOCKED UP.

Negro Told Policeman He Had Killed Woman in Self-Defense.

Philadelphia, Aug. 6.—Walking up to a policeman late Tuesday night, a young negro said:

"Reckon you better lock me up, boss; I killed a woman, but I did it in self-defense, and I want to be locked up. I had to do it to save myself."

The policeman accommodated the man, who gave his name as Robert Herring. In a house in the southern section of the city the police found Maggie Albert, a young negro, dead with five bullet holes in her head. Jealousy is believed to have been the motive for the crime.

### Death Claims Dr. Robertson.

Atlanta, Aug. 6.—Dr. Ulof Oscar Robertson, founder of the Robertson sanitarium, noted typhoid fever specialist and originator of the water cure, died at his country home at Rockboro, near Peachtree road, Tuesday morning.

### DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it always that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and \$1.00. J. B. Bodiford & Co., Special Agents.

## ALL PRUDENT BANKERS

Before making loans, or agreeing to give any person or firm a certain line of credit, require a thorough statement of the affairs of the prospective borrower. If this statement is satisfactory, and shows that it is the policy of the borrower to conduct his business prudently and economically, the banker grants the loan.

## ALL PRUDENT DEPOSITORS

Should be just as careful to look into the affairs of the Bank in which they deposit their money—satisfy themselves that the Bank is conservatively managed before depositing their money. Depositing in a Bank is practically the same thing as loaning your money to the Bank, and you are entitled to know something of its affairs. See our last statement.
